

2013 Express Scripts High Performance Formulary For West Virginia PEIA PPB Plans A, B, C and D

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: The symbol * next to a drug signifies that it is subject to nonformulary status when a generic is available throughout the year. Not all the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the phone number printed on your ID card.

Table with 6 columns: A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P. Each column lists drug names and their formulary status (e.g., [QLL], [ST], [PA*]).

THIS DOCUMENT LIST IS EFFECTIVE JANUARY 1, 2013 THROUGH DECEMBER 31, 2013. THIS LIST IS SUBJECT TO CHANGE. You can get more information and updates to this document at our website at www.express-scripts.com.
